ID numbers

Where this is an updated version of the statement of purpose, please provide the service provider and registered manager ID numbers:

Service provider ID	1-120630251
Registered manager ID	

Aims and objectives

What do you wish to achieve by providing regulated activities?

How will your service help the people who use your services?

Please use the numbered bullet points:

Rodwell House aims to provide whole person care by addressing its residents' physical, emotional and spiritual needs and by promoting the importance of healthy relationships between God, themselves and others.

We place the rights of residents at the forefront of our philosophy of care.

We aim to provide a happy, secure environment and congenial surroundings for every resident.

We aim to ensure that each person is recognised as an individual and care and attention is provided to meet each specific physical and emotional need.

1. It is our objective that those residents who live at Rodwell House should do so with dignity, have the respect of those who support them and be entitled to live a full and active life, given the fundamental right to self-determination and individuality and to achieve their full potential. This is best achieved by sensitive recognition and nurturing of that potential in each individual and understanding that this may change with time. In order to ensure that this happens; each resident's care will be planned individually.

2. The care is not be institutionalized by the requirements of the staff. All human and basic rights are to be accorded to all residents in our care without discrimination.

3. Residents are encouraged to bring their own individuality to share with others and to pursue their own interests and relationships. Hobbies and leisure interests are encouraged and facilitated. Programmes of activities will be provided to encourage mental alertness, self-esteem, and social interaction with other residents.

4. In terms of risk assessment, those residents who are judged competent to judge risks themselves are free to make their own decisions as long as they do not threaten the safety of themselves or others.

5. Staff are to respect personal rights and privacy, and are to responsive to individual needs. In support of our whole person care ethos, emotional and spiritual support is considered vital to the general well being of each resident.

6. The staff are to be sensitive to the residents' ever-changing needs which may be medical / therapeutic (for physical and mental welfare), psychological, spiritual, emotional or social.

7. The service has been established with a quality-orientated approach to the business and a high degree of quality awareness is developed through all levels of staff training and management. The aim of these measures is to continually improve the quality of the service offered to our clients.

8. Within Rodwell House, we have adopted "Relationship Centred Care" as our principal approach to care provision. We seek to integrate this into all aspects of our operations, with the aim of building stronger relationships between people who will

use our services, staff, relatives, friends, etc. The objective being to ensure that the needs and how these are to be met will be clearly defined and the views and experiences are listened to and influence the way the service operates.

The concept of Relationship Centred Care takes the well established concept of Person Centred Care one step further with the recognition that to enable people who will use our services to be happy and fulfilled, we need to understand their past and present relationships with others. It is not just their relationships with staff that are important but also their relationships with family members and other care professionals.

In short, Relationship Centred Care reflects the importance of interactions among people and recognises that these provide the foundation of any therapeutic care activity.

Please repeat the following table for each of your regulated activities¹

Regulated activity 1 <i>As shown on your certificate of registration</i>	Personal Care
Services <i>What services, care and/or treatment do you provide for this regulated activity? (For example GP, dentist, acute hospital, care home with nursing, sheltered housing)</i>	We provide personal care to pre-existing tenants of our care suites who chose to buy their personal care from us. The tenant may be visited at various times of the day or night or in some cases could be provided over a full 24 hour period. All new residents are now provided with a nursing home agreement rather than a tenancy agreement, so personal care is no longer provided to any new residents.

Regulated activity 2 <i>As shown on your certificate of registration</i>	Accommodation for persons who require nursing or personal care
--	--

Services <i>What services, care and/or treatment do you provide for this regulated activity? (For example GP, dentist, acute hospital, care home with nursing, sheltered housing)</i>	The accommodation within Rodwell House is for high quality specialist nursing care for people with physical frailty and/or dementia. The home offers a caring and secure environment conducive to meeting residents' mental and physical needs. The care provision is led 24/7 by RMN's and RGN's and a good proportion of care staff have NVQ levels 2/3. We provide ongoing specialist training and development to the staff. The focus of nursing in this activity is on the planning or delivery of treatment or care. Personal care is provided in line with the CQC guidance. Our assessment process recognizes the importance of prospective residents being socially compatible with others and that we can effectively meet their assessed needs. We draw on expert professional guidelines for the services the home provides. In pursuit of the best possible care we will do the following: • Produce with each resident and their representative, regularly update, and thoroughly implement a resident plan of care, based on an initial and then continuing assessment. • Seek to meet or arrange for appropriate professionals to meet the health care needs of each resident. • Establish and carry out careful procedures for the administration of residents' medicines. • Take steps to safeguard residents' privacy and dignity in all aspects of the delivery of health and personal care. Treat with special care residents who are dying, and sensitively assist them and their relatives at the time of death.
Regulated activity 3 <i>As shown on your certificate of registration</i>	Treatment of disease, disorder or injury

Services <i>What services, care and/or treatment do you provide for this regulated activity? (For example GP, dentist, acute hospital, care home with nursing, sheltered housing)</i>	We offer a treatment service related to disease, disorder or injury that is provided by our team of qualified nurses in conjunction with a multi-disciplinary team, i.e. GPs, Consultants and Specialist Nurses. We do not provide psychiatric treatment or therapies. The service is primarily for ongoing treatment of long-term conditions and those in need of palliative or end of life care. Where appropriate, care staff who are trained and considered competent can carry out certain minor treatments under our nursing team. The treatments we provide includes: • The ongoing assessment of a service user's mental or physical state. • Nursing, personal and palliative care. • The giving of vaccinations and immunizations.

Notes:

1. Regulated activity – If you use a combined statement of purpose, repeat the information for each of the regulated activities for which you are registered. You can do this by copying and pasting the whole regulated activity table.

2. Locations – For each location registered for a particular regulated activity (including your headquarters), please provide a brief description, including whether the services at that location are specifically adapted or suitable for people with particular needs or where you can meet requirements for special facilities or staffing. You can do this by copying and pasting the relevant lines for each location. You may also give details around 'listed buildings', shared occupancy, and special facilities (for example hydrotherapy pools).

3. Overnight beds – If the location provides overnight beds, please state the number.

4. Registered manager(s) – Where the regulated activity is managed by a registered manager(s), please enter his or her full name, contact address (if different from the location address), telephone number and email address. Please state how much time is spent managing the regulated activities where more than one manager is in post for each location. This may be in days or hours. Where the regulated activity has no separate manager but is managed directly by the provider, leave the box empty.

5. Service user band(s) – Tick all the boxes that describe the service user needs or groups of people who use your service.
